

Passport Online Selected for Virtuoso® Incubator Program

Tandem Agent Central B-to-B Booking Engine Presents at Virtuoso Travel Week

Las Vegas, NV (August 11, 2015) – Passport Online Inc. has been selected as a technology partner for the Virtuoso Incubator program. Passport is demonstrating its Tandem Agent Central business to business cruise booking engine at Virtuoso Travel Week August 8– 13.

Virtuoso®, the international network of luxury travel agencies, created the Virtuoso Incubator program to cultivate new technology tools that will further empower its travel agency members and their advisors. As a program participant, Passport will be working with advisors from ten agencies selected to pilot Tandem Agent Central. The advisors will be able to search and book cruises directly from their desktop, including Virtuoso’s Voyager Club exclusives. Passport will work with the pilot group to further enhance and customize the tool for Virtuoso agencies.

Tandem Agent Central is an agent productivity tool that incorporates shopping, email marketing and booking into one central portal. It provides agent users with access to one central location to search and book cruises online. The system has 15 bookable cruise lines and an additional 15 searchable lines. The program includes the ability to import/export data from ClientBase Live Connect, offers supplier preference, the ability to view, manage and modify bookings and allows agents to import bookings made in other cruise engines. Users can book multiple cabins at one time, access Virtuoso exclusives, add transfers, insurance and pre- and post-cruise hotels within the booking process.

“As a leading technology provider in the industry, we are thrilled to be part of the Incubator Program and to introduce Tandem to Virtuoso. We know this will be an effective and efficient productivity tool for its agency members,” said Marilyn Macallair, Vice President of Business Development for Passport Online.

About Passport Online

Passport Online is the leisure travel industry leader in website, web content, email marketing, and social media solutions. Passport also offers state of the art cruise booking engine solutions for b-to-b and b-to-c needs.
